City and School District of Dover, New Hampshire

UNIQUE VALUE TO CUSTOMER

Through an RFP process, ADI Energy was ranked #1 for technical expertise in energy procurement, performance contracting, RFP development, and ongoing commissioning. ADI Energy worked with the City to develop a master energy efficiency procurement plan for the City and School District in Dover, New Hampshire.

ADI Energy continues to provide services through a commissioning process for the performance contract. Under the contract, ADI Energy developed the RFP and evaluation matrix, and also guided the City of Dover, New Hampshire through the RFP and the operations aspects. ADI Energy negotiated the contract with the ESCO to insure that the contract matched the promises in the ESCO's proposal regarding the scope of services, the M&V and the commissioning plan.
