SUMMARY

American Development Institute (ADI Energy) was hired by Chevron to perform photovoltaic (PV) feasibility studies at Medway High School and Medway Middle School.

Solar Energy Massachusetts

Investment: \$2,604,000

of Buildings: 2

BUILDINGS

- High School
- Middle School

SERVICES

- Total Cost Evaluation
- Savings Modeling
- Solar PV Layout Design

MEASURES

- Solar PV Evaluation

Town of Medway Medway Schools

UNIQUE VALUE TO CUSTOMER

ADI Energy visited the schools in the Town of Medway and developed a solar PV feasibility plan. The plan included surveying the location where the PV systems will be installed. ADI's report summarizes the evaluation of each building and its recommendations for PV system installation.

ADI Energy provided Chevron a report that details the audit, associated analysis and the resulting feasibility of the potential project. ADI Energy provided a conceptual design that maximizes the output of the system while minimizing its investment. ADI Energy also evaluated the varying layout designs for each building in order to maximize the energy output of the system.
