SUMMARY

ADI Energy has been retained by the Department of Energy Resources (MA – DOER) to prepare Clean Energy Audits for a number of municipal buildings for the Town of Lancaster, Massachusetts.

Size: 4 buildings, 35,828 square feet

Overall value: \$6, 330

Annual savings: \$3,656

Payback: in 1.7 years

SERVICES

- Energy audit
- Energy savings analysis
- Benchmarking
- ECM recommendations
- Energy profiling
- State utility incentive program recommendations

MEASURES

- Solar PV and Solar Thermal
- Lighting
- Variable Frequency Drives
- Retro-commissioning
- Boiler Retrofits
- Indoor Air Quality

Department of Energy Resources-MA

Town of Lancaster, MA

UNIQUE VALUE TO CUSTOMER

Energy studies were commissioned for the different buildings of the Town of Lancaster in order to identify cost-effective energy conservation measures (ECMs) that would qualify for funding under DOER's Energy Conservation Improvement Program (ECIP).

Under this program, ADI Energy has audited the Thayer Memorial Library, the Police/Communications Center, the Central Fire Station, and the South Fire Station.

Not only did ADI Energy provided recommendations to various ECM's that would yield significant energy savings to the Town of Lancaster, but also recommendations to optimize the operational efficiency of their building systems. ADI Energy also presented the Town of Lancaster with different utility purchasing savings opportunities such as energy procurement, demand response and forward capacity payments programs.
